Effective Business Management

Installing a single integrated system immediately frees up your time, and the time of your staff by automating and improving virtually all of the processes and tasks you currently manage manually.

Within the Fruit & Vegetable Industry, My.N enables you to increase efficiency, control and profitability by managing:

- Process in boxes, kilos or singles
- Sales Orders
- Picking Sheets
- Catch Weights
- Stock Control
- Traceability
- Suggested Purchasing
- Invoicing and Accounts

Whatever your customer wants, we will help you deliver.

“Simply allows you to concentrate on growing your business.”

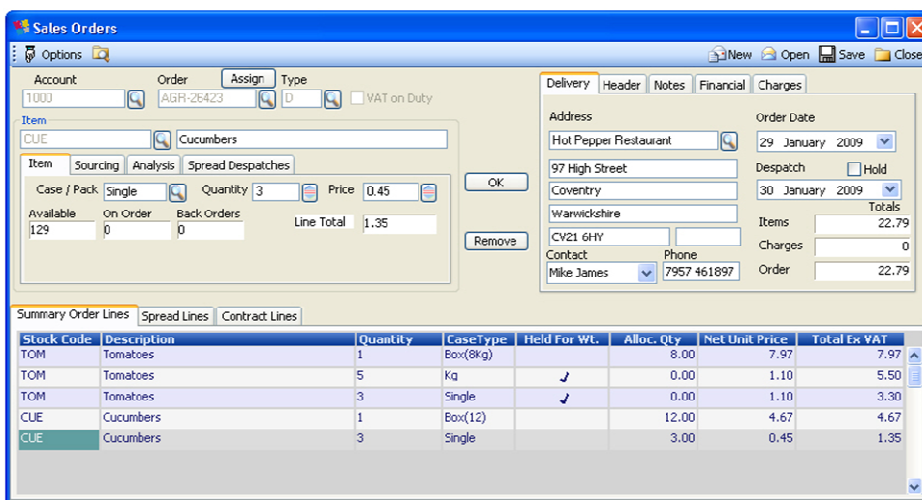

“My.N has allowed us to do more business and process it more effectively.”

Rowlands Ltd

My.N simply brings together all of your front office dealings with your back office activities, and simplifies them.

Once installed you will see immediate improvements in quicker order taking, automatic production of picking sheets, faster despatch and streamlined accounts.

It just means you make more money for less work.
